Vol. 118 No. 53

Cameron, Milam County, Texas, Thursday, September 8, 1977

12 Pages Today

COTTON HARVEST is coming along at a rapid rate in the county as dry weather speeds the picking. Gins have been overworked as loaded cotton trailers await their turn in gin yards.

Two Traffic Mishaps Reported For Holiday

Only two accidents were recorded in the county over the Labor Day weekend, with some injuries reported but no deaths.

A 43-year-old Rockdale man was under observation Sunday night at Richards Memorial Hospital in Rockdale for injuries after his car hit the embankment at the intersection of FM 2116 and FM 486 about 5:35 p.m. Sunday.

John L. Robertson was treated for a minor concussion Sunday night, a hospital spokesman said. According to investigating officers, Robertson was attempting a turn onto FM 486 when he had an apparent blowout. Robertson's car went through the T-intersection and crashed into the embankment.

And a two-car accident in Cameron Monday resulted in minor injuries to two passengers, identified as Dorothy Taylor of Cameron and Mrs. Ruby Pratt, also of Cameron.

Rider Hurt In Motorcycle Accident

Curtis James Morgan of Rt. 2, Buckholts was listed in satisfactory condition Tuesday night in a Temple hospital after the motorcycle he was driving turned over several times on an overpass on South 1st at Loop 363 in Temple.

A Temple patrolman said Morgan was heading towards Heidenheimer shortly before 2:30 a.m. when the cycle apparently struck a curb on the overpass, causing it to overturn and throwing him clear of the vehicle.

The helmet Morgan was wearing at the time of the mishap was cracked when he was thrown from the motorcycle. He was rushed to Scott and White Hospital.

The accident occurred at 6:22 p.m. at the intersection of Fourth and Nolan, when a car driven by Paulette Blaylock attempted a left turn onto Nolan. Driver of the other vehicle was Danny Pratt.

Mrs. Pratt received emergency treatment for minor injuries at St. Edward Hospital while Mrs. Taylor was admitted to Newton Hospital for observation.

The final Labor Day fatality count for Texas shows that 31 persons lost their lives during the holiday weekend, according to Floyd Tiptitt, safety information officer for the Texas Department of Public Safety.

The count began at 6 p.m. Friday Sept. 2 and ended at midnight Monday. It had been estimated that 44 persons would die during this 78-hour period.

There were 29 fatal traffic accidents in which 31 persons died. Of the 31 deaths 14 occurred in 12 one-car run off road accidents. Seven died as a result of seven motorcycle accidents in which four of the seven were not wearing protective headgear, Tiptitt said. Five auto-pedestrian accidents contributed five deaths.

First In Air Force

Cameron Native Wins Her Wings

Captains Connie J. and Richard L. Engel became the first married active duty pilots in the history of the U. S. Air Force when he pinned silver wings on her during graduation at Williams Air Force Base in Arizona on Sept. 2.

Connie is one of the first 10 women to enter the Air Force test program for women in Undergraduate Pilot Training (UPT), and will be assigned at Williams AFB as an instructor pilot in the T-38 Talon.

Connie, granddaughter of Mr. and Mrs. Leeman Wilson of Cameron, was born in Cameron. She is the daughter of Lt. Col. and Mrs. Albert Ricks of Lompoc, Calif. Being brought up in an Air Force family, Connie's interest in flying is not unusual. Her father was a pilot and flying lingo has long been a part of her vocabulary.

Connie made her first solo flight in a private aircraft flying into the Cameron airport. Her grandparents knew she was coming and watched her circle their ranch a couple of times before she landed. Her grandfather went to pick her up and was amazed that she was the only one in the plane.

She met her husband at Williams during her first Air Force assignment and it was also at Williams that Captain Connie Engel became the first woman in UPT to solo in a jet aircraft.

There were 36 men and 10 women in Connie's class at Williams and she was class leader. Her husband has been an Air Force pilot for eight years and is currently in test pilot training at Edwards Air Force Base. Eventually, the couple hope to be assigned to the same base.

Connie found that one major irritation in being "one of the first" in UPT was that the women had to wear men's flight suits, helmets and boots many sizes too large until clothes could be made to fit them.

City Council Postpones Annexation Vote

Vote on Cameron's proposed annexation of an additional 380 acres to the city limits, originally scheduled for Tuesday's council meeting, was postponed until the Sept. 20 meeting because of the absence of a councilman.

As it turned out Tuesday, Mayor Lawrence Zolt was also absent due to illness and Mayor Pro-tem Ernest Moore conducted the meeting which had a short agenda. The missing councilman was Lincoln Mondrik.

Councilman Tommy Corley reported that a traffic engineer who surveyed the congestion problem at Ben Milam school recommended that crosswalks be better marked and the area be patrolled. Corley said the engineer does not recommend making 10th St. one-way as was requested by the school board.

Two residents of the South Orchard-West Batte area asked for a sewer extension to serve about eight homes in the area. Council said a check would be made to see if this could be included in the Community Development Agency's sewer project.

FEE INCREASE ASKED

Ed Bigbee, building department official, asked the council to take action on increasing electrical and plumbing fees, and to provide a penalty for those who do not take out building permits. He said there is much work being done for which no permit was taken out.

He explained that for any construction costing over \$100 a permit is required, and that some cities provide for fines for lack of a permit, but Cameron's ordinance provides only for doubling the permit fee in such cases.

Bigbee also asked that inspection fees on plumbing and electrical work be raised from \$1.50 to \$5, so that the building department's income would meet expenses. Council asked that he check with other cities on their fees and report at the next meeting.

ing.

BUILDING PLANS

Corley reported that floor plans for a new city hall and a chamber of commerce building are being drawn up by the committees assigned to the project, and plans are for those two offices to be built on the library lot and a new fire station to be located on the lot across from the county museum.

Questions were asked about when paving in the Green Addition would start, since the contract was let about two weeks ago. City Secy. Buddy Fuller said the contractor has 45 days to start according to the contract, and that he understood the contractor is now working in Rockdale.

Council instructed Fuller to contact the firm so that residents' questions could be answered.

Council authorized repairs to the pavilion in City Park with the city furnishing materials and Green Thumb workers making the repairs.

Other action included approval of purchase of a carload of patching material, installation of a street light at N. Austin and W. 20th, and a transfer of funds.

Firemen Answer Grassfire Calls Over Weekend

Cameron volunteer firemen answered five calls over the weekend, four of them to grassfires as dry weather continues parching grass to tinder.

On Sunday, one grassfire was at 300 South Austin, one at 300 South Burleson, and another along the Hanover Road. Firemen also were called to Holloway's Laundry Sunday when a dryer caught fire.

Monday's call at 6:45 p.m. was to another grassfire on the old Salem Road.

as a nurse after graduating from The University of Texas in 1971. She met Rich at Williams and they were married in 1973.

Articles in Newsweek, Time, Apogee, Worldwide Challenge, and other magazines will feature Connie's story. In addition, she is to be a guest of "Good Morning America" and the "Today tv shows on September 7.

CAPTAINS Connie J. and Richard L. Engel hold a unique position in the United States Air Force. Connie received her wings Sept. 2 and they are the first married active duty pilots in the history of the Air Force. She is the granddaughter of Mr. and Mrs. Leeman Wilson of Cameron.

RENEWAL CREDITS BEGIN...

Your Herald has already credited some renewals to Yoe High School band and a few individual bandmen who have been named for such credit toward individual band subscription bonuses.

Your Herald is responsible for subscriptions either new or renewal to this newspaper on the terms presented by band salesman for Herald or national magazine subscriptions, new or renewal.

Yoe bandmen will win points toward bonuses for selling new and renewal subscriptions in combination with new and renewal subscriptions to the array of national magazines they represent. Bonus commission to bandmen, however, will come only from the sale of new and renewal annual subscriptions to The Herald, 50 per cent for new ones, 40 per cent for renewals.

This is the first combination subscription drive either your Herald or Yoe band has ever

conducted. It is capable of producing outstanding levels of funding for Yoe band trips and activities.

We urge your consideration of these subscription offers by your Herald and Yoe band for what they are capable of producing in combination sales.

118-118-118

By experience, your Herald knows what is proper in such subscription programs. And certainly, director Jerry Bartley runs an excellent subscription program for magazines of such quality as Reader's Digest, TIME, Good Housekeeping, Ladies Home Journal, NEWSWEEK, True, among dozens of familiar titles.

Your Herald brings with it the 118 years of identity as a small, established periodical which compares favorably in its sphere with the magazines offered by the Yoe band.

We commend this combination to you.

What Others Say...

A Drive For Recognition...

The farmer now identifies himself as a successful, exploited minority which is suffering, this 1977, the possibility of further reduction in numbers because of weather, commodity prices and circumstances of agri-business. Here, friend and farm expert Clark Bolt discusses the reasons farmers drove in "tractor protests" Labor Day in Temple and Hillsboro, along access roads of I-35. ---Ed.)

By Clark Bolt

Farm Editor, Waco Tribune Herald
Sunday, Sept. 4, 1977

While city slickers will take a holiday Monday, some agriculture producers in Central Texas will have a "holiday" of their own. They normally don't celebrate Labor Day, except by working in their fields stripping cotton and getting ready for small grain planting. But this time, they'll desert those and other farm chores to take part in protest demonstrations set for Temple and Hillsboro.

Farmers know why they are protesting; they want city people to understand it, too. The simple fact is there is no money being made in agriculture, not enough in fact to cover the cost of production. Farmers are either broke or going broke. They can't understand why the rest of the world doesn't seem to care or even know about it.

Farmers are just like everybody else. They borrow money and know and expect to pay it back and have something left over on which to live. This year it is different. Farmers in Central Texas are not only facing bankrupt prices; they are harvesting a short crop. Low production and low prices combined with ever increasing costs are putting them under.

IT'S NOT UNCOMMON for a farmer to have a half million to a million dollars and more invested in his farm operation. This year he is getting absolutely no return from that investment.

Farmers understand the law of economics, too. They know if they can't pay back what they borrow, they must go out of business.

What's at stake is more than just another farmer gripe. What is at stake is the future of the family farm system of agriculture that is the basis for the success of this nation.

Those of us who like to eat and wear clothes need to be aware of this. If we should lose the family farm system of producing food and fiber, we as consumers will be spending a lot more of our money for food and clothing. We may think food prices are high now, but we haven't seen anything yet.

So this is what it's all about. Farmers are somehow going to

have to make a profit.

HOW TO ACHIEVE that in times such as this almost defies solution. In years past, farmers could get by on low prices for a few years. But now it costs so much to make a crop that a one-year crop and price failure is a disaster.

For four decades, government farm programs of all types have been tried with varying degrees of success.

As individuals, farmers through their thousands of organizations have tried to help themselves, with varying degrees of success.

To those outside agriculture, the easy solution would be for farmers to get together. That's an impossibility when you consider the scope and immensity of agriculture itself. Even if they could somehow all get together and set their own production, the weather could change all those plans in a few days or few weeks.

SO WHAT'S A FARMER to do? He cannot set his own price; he cannot pass on to the buyer of his commodities his increased costs of production that every one else in the economy is able to do.

Some now believe that government is his only hope.

But every farmer we know does not want to be on a government dole. Farmers are independent; they don't like the idea of government bailing them out. They've been down that road before, too. The farmers I know would much rather be producing for a free market, getting their price in the market place. But they know, too, the free market price now is a bust.

MAYBE THERE IS one idea that hasn't been tried. Perhaps the experts could come up with some kind of nationwide farm price protection insurance. This idea has been tried in years past in crop insurance protection; that idea is still being used today.

It may be it could be handled through private enterprise or perhaps through the government. It may be that farmers could voluntarily take part in it, pay their own premiums for whatever price disaster protection level they wanted.

It might at least give them something on which to get by in times like these.

MEANWHILE, you are invited to participate in the farm protest demonstration. They both begin at 10 a.m. Labor Day.

The meeting place at Temple will be the Coufal Implement Co. south of Temple on Highway 95. That group will go by tractor, truck, pickup and whatever north to the Temple Livestock Auction barn. Plans also call for a picnic lunch and speeches.

The meeting place for the Hill County group will be Itasca. That group will go south through Hillsboro down the access on I-35 to about the Hill County line, then return to Curtis Implement Auction, south of Itasca. Lunch and speakers will also be on the agenda.

500 New Laws Taking Effect

—It's the law . . . Five hundred new ones took effect September 1 reaching into nearly every aspect of life and even death.

One of the new laws banned the electric chair and provided for execution of condemned criminals by lethal drug injection.

Another allows terminally-ill patients to specify that their lives not be postponed by artificial methods including mechanical devices.

The largest state budget in history—\$15.5 billion—was passed by the legislature this year, and September 1 was opening day of the new fiscal period.

Merger of the Texas Water Development Board, Texas Water Quality Board and Water Rights Commission into a single Department of Water already has been discussed in this column.

A "Sunset law" sets up a procedure for determining whether state agencies should be continued or phased out. Twenty-six, mostly minor regulatory agencies, must send self-evaluation reports to a Sunset Advisory Commission for review by October 30. The legislature in 1979 will decide whether they should be abolished or renewed.

Other laws taking effect this month would require mandatory supervision of released state prisoners, legalize Laetrile for cancer treatment, expand the Court of Criminal Appeals, establish a procedure for criminals to make payments to victims of their crimes, establish a statewide adult probation system, allow cities to increase hunting and fishing license fees, and give coal slurry pipelines power to condemn land for rights of way.

POLITICS POPPING

Statewide political races are beginning to shape up. State Insurance Board Chairman Joe Christie resigned his post and said he will decide by October whether to run for the U.S. Senate. U.S. Rep. Robert Krueger of New Braunfels is already campaigning actively for the Democratic nomination to oppose U.S. Sen. John Tower, a Republican.

Meanwhile, State Republican Chairman Ray Hutchison designated himself as campaign treasurer for a prospective race for governor. Gov. Dolph Briscoe has announced for a third term, and Atty. Gen. John Hill is expected to oppose him in the Democratic primary.

MARSH SALE REJECTED

Gov. Briscoe disapproved sale of Jefferson and Matagorda county marshlands to the U.S. Fish and Wildlife Service for national wildlife refuges.

He suggested state or local ownership as an alternative. The federal agency had proposed to buy McFaddin and Sea Rim marshes in Jefferson County and the Smith marsh in Matagorda County.

Briscoe noted Jefferson and Matagorda commissioners opposed the sale. He suggested the State Parks and Wildlife Department work with the federal service and local governments to "explore all reasonable alternatives and methods of preserving these natural wetlands."

PORN STUDY ORDERED

House Speaker Bill Clayton has set up a special committee to study the problem of child pornography and find out what to do about it.

He named an 11-member committee, headed by young Houston Rep. Ralph Wallace, to make recommendations to the 1979 legislature.

Clayton estimated 1.2 million children between eight and 16 are involved in pornography and prostitution.

COURTS SPEAK

The State Supreme Court refused to block Houston disbarment proceedings against Don Yarbrough, a former member of the court.

A U.S. Supreme Court justice ordered Lo-Vaca Gathering Company not to shut off gas to Crystal City.

Fifty-third District Judge Herman Jones in Austin held Atty. Gen. John Hill could not sue the Texas Water Quality Board because the attorney general is supposed to represent state agencies. Hill indicated he may appeal.

AG OPINIONS

Atty. Gen. Hill said the open meetings act does not prevent a city council from meeting in closed session to discuss selection of a mayor pro tem unless the nominee objects.

In other recent opinions, Hill concluded: Texas A&I University board has authority to select administrative officers by any procedure it chooses as long as the action is not unreasonable, arbitrary, capricious or discriminatory.

The comptroller may delay entering contracts authorized by the recent amendments to the public employees deferred compensation plan until federal income tax consequences can be established.

OLD PHILOSOPHER

Dear editor:

Because everybody needs something to talk about till the regular football season starts, the month of August was devoted to talking about the Panama Canal. Fans with losing teams will probably continue talking about it all Fall.

The canal is not one of my major worries. I've never been through it and have no plans to. Yet it generates a lot of hot debate.

People in favor of keeping it say we built it, we paid for it, and it's ours. Others say so what, if the Panamanians want it, let them have it; our big oil tankers and war ships can't squeeze through it anyway.

But in all the discussion I've not heard anybody get to the main point: is it making any money? Do we charge ship owners enough to pay for the upkeep? How many hot checks are we holding from Russian ships going through it? If there are a good many, have we thought of making it coin-operated?

Just because we bought and paid for the canal is not necessarily an argument for keeping it. There are ranchers in this country who bought and paid for cattle three years ago they wish they could get their money back on now. There are city people who bought certain stocks they'd now like to unload

on somebody else.

Before I make up my mind on the Panama Canal I'd like to see an operating statement on it.

But if the Panamanians insist they've got to have the thing, that they're fully capable of operating it, I've figured out a deal. They can have it if they'll take over Amtrak in this country too. If that doesn't seem quite fair, we could maybe throw in the Postal Service also.

What are the prospects for the Cameron Yoemen this year?

Yours faithfully,
J.A.

you
and the
LAW

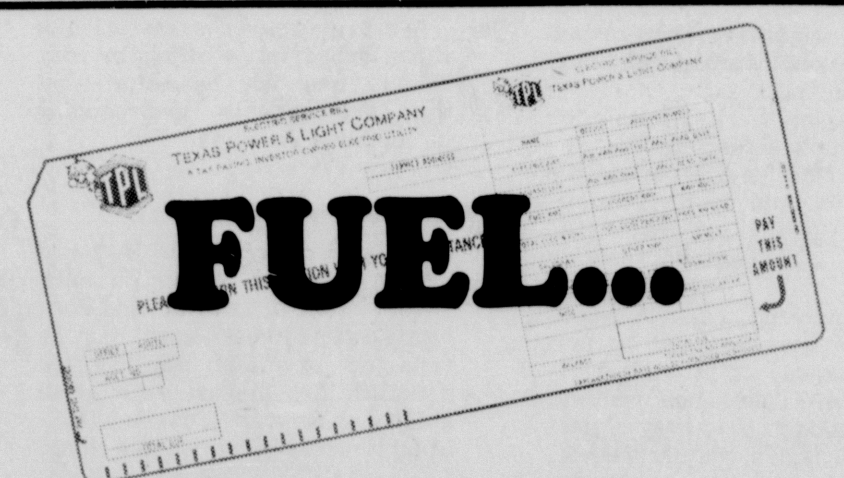

PRESENTED BY THE
STATE BAR OF TEXAS

Q: Here's a question that could become troublesome. Let me ask it hypothetically. If a man is separated but not divorced and is living with another woman as husband and wife, is this considered bigamy?

A: The answer to your question is "yes." Under the Texas Family Code, going on the facts that you've mentioned, the couple would seem to be married by common law. Bigamy in Texas is a third degree felony punishable by not less than 2 years and not more than 10 years in the Texas Department of Corrections and a \$5,000 fine.

Q: If I am stopped by a law enforcement officer for a traffic offense, am I required to sign the traffic ticket?

A: You do not have to sign the ticket. However, the law requires that a citizen who refuses to sign a traffic ticket must be taken before a judge. This means the citizen may spend some time waiting in jail for the court to come into session or for the judge to be located if he or she is not in the courthouse at the time.

and your electric bill.

Fuel is essential in the production of electricity. Texas Power & Light Company generating plants burn very large amounts of natural gas or lignite coal and, when supplies of gas are short, oil to produce steam which operates turbine generators. Fuel costs are charged to each TP&L customer according to the number of kilowatt-hours of electricity used by the customer.

Before July 1, 1977, your basic rate for electric service included a fuel cost of about eight-tenths of one cent for each kilowatt-hour. The additional cost of fuel used to produce your electricity was shown on your bill as a fuel adjustment factor.

Since July 1, 1977, under requirements of the new Public Utility Commission of Texas, all fuel costs have been

removed from the basic rate. Now, the entire amount you pay for the fuel required to produce the electricity you used is shown on your bill in the space identified, *Fuel Amt.* This amount is figured by multiplying the number of kilowatt-hours of electricity you used by a fuel adjustment factor which appears on your bill in the space identified, *Fuel Cost per Kwh.* This factor is simply the per kilowatt-hour cost of all fuel required to produce your electricity.

The fuel cost per kilowatt-hour and the fuel amount on your electric bill will vary from month to month. These variations, either up or down, occur as the price TP&L pays for each kind of fuel fluctuates and as the amount of each kind of fuel used varies.

County Agent's Notes

Training Slated For Pesticide Applicators

By Bill McCutchen
Milam County Extension Agent

Milam County producers will have another opportunity to complete a training program leading to certification as private applicator at a program scheduled for 7:30 p.m. September 8 at the gymnasium at the Buckholts High School.

This is the final training program for Milam County. Previous training has been offered in Thorn-dale, Rockdale, Cameron and Gause.

As an alternative to participation in a training program, an individual may qualify for certification as a private applicator by submitting a completed questionnaire to the Texas Department of Agriculture following a review of self-study materials. These materials can be obtained at the County Extension Office.

SAFETY CORNER

HARVEST SAFETY
Harvesting is the payoff to the crop year. Safety can insure that you receive it. Keep your equipment in proper adjustment and in safe working order. Keep guards in place, and trash off of working platforms and steps. Be extremely cautious on highways. Turn off power before unclogging or servicing machinery and read and know your operator's manual.

COTTON HARVEST

The cotton harvest is moving along well and should be about complete with another week or so of open weather. Grades have been exceptionally good, yields have been good on older cotton, but prices have been dropping for no apparent reason.

Cottonseed prices are atrocious. Producers would do well to consider feeding cottonseed at present prices.

Get those cotton stalks destroyed. Early stalk destruction is the best method we have of cutting overwintered weevil populations for next year.

Naman Asks Grazing On Set-Aside Acres

In a letter to the Secretary of Agriculture, Texas Farmers Union President Jay Naman urged that wheat farmers be permitted to graze set-aside acres and that diversion payments be made to compensate wheat farmers for their set-aside.

"Wheat farmers who are also cattle producers need the opportunity to graze set-aside acres to supplement low income from wheat production. It will encourage their participation in the wheat program," Naman said.

Texas Farmers Union has criticized the level of set-aside as being inadequate, but feels that the set-aside provisions can be administered in such a way as to get maximum participation. Permitting grazing on set-aside acres would encourage wheat farmers to comply and to participate in the farm program, according to the Farmers Union.

Naman urged Secretary Bergland to announce a diversion payment in connection with the set-aside. According to Naman, the Secretary of Agriculture should authorize the payment of an amount sufficient to compensate farmers for abandoning set-aside acres.

Naman said, "The grain glut that farmers find themselves in was not their responsibility. They were encouraged and even coerced to expand acreage by the previous administration. It is the responsibility of the government and the general public to see to it that wheat farmers are extricated from their serious economic predicament."

The question of grazing set-aside decided in a matter of days if the farm program is passed and signed by President Carter. Texas wheat producers are in general support of the liberal grazing regulations.

Farm and City

THEN & NOW!

THEN. Soap was invented, as legend has it, when rain washed a mixture of animal fat and ash down Sapo Hill in ancient Rome and into the Tiber River. Women doing their wash in the river noticed that their clothes were getting cleaner. Why? The fat had combined with the alkali in the ashes to form soap.

FARMERS CONVOY - A fleet of farm machinery in Bell County stretches out two to three miles as the protesting farmers traveled south of Temple to north on Loop 363

past Scott and White Hospital and past Temple Mall to I-35, back on I-35 access to Temple Livestock Auction. (Waco Tribune Herald photo)

Entomology Notes

Stalk Destruction

Stalk destruction and early plow up of cotton is the number one method of reducing potential boll weevils in the 1978 cotton crop.

Cotton that is starting to show signs of regrowth will produce enough green foliage, stems, and small squares to feed quite a few boll weevils.

Weevils that have had the opportunity to feed for a long period of time before going into winter hibernation have a much better chance of surviving the winter.

Cotton that is showing regrowth, should be plowed under immediately!

Sticky Pecan Leaves?

If you noticed that the leaves on your pecan tree are sticky, or glitter in the sunlight, you have aphids! These small (about the size of a pinhead) or bluish aphids can be found feeding on the undersides of the leaves.

Aphids can cause pecan trees to drop their leaves early which reduces your chances of making a decent pecan crop next year. It appears that the aphid problem is heaviest in the Taylor area of Williamson County.

If you are noticing aphids and sticky substance on the leaf surface (called honeydew) control is in order. Homeowners can use Malathion, Phosalone (Zolone), or Dimethoate (Cygon or Defend) to control aphids; Seven won't get em!

face (called honeydew) control is in order. Homeowners can use Malathion, Phosalone (Zolone), or Dimethoate (Cygon or Defend) to control aphids; Seven won't get em!

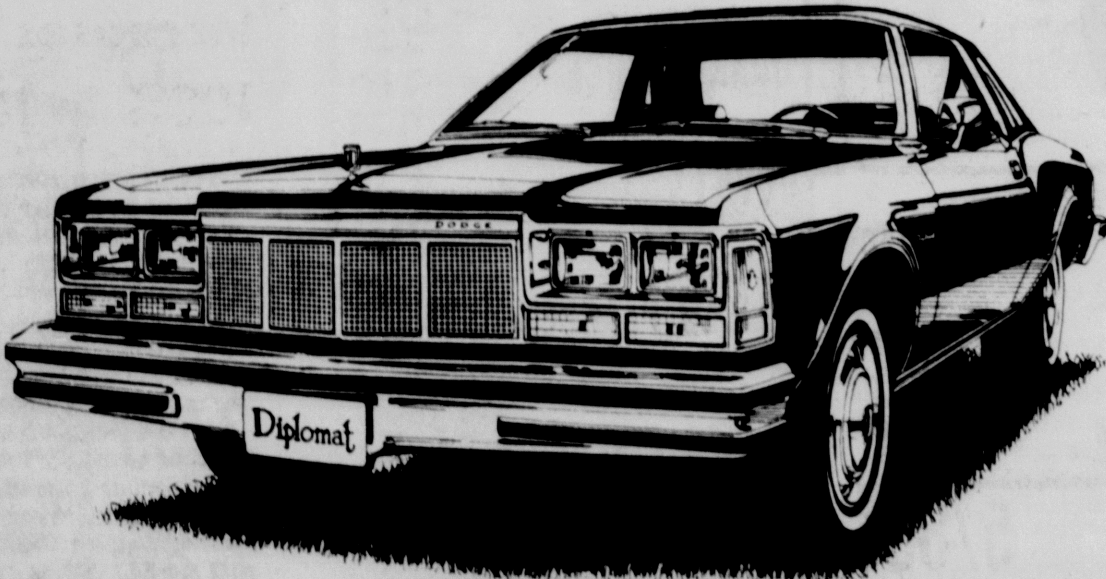

DONALD ROYAL

Airman Donald R. Royal, son of Mr. and Mrs. Thomas F. Royal of Route 1, Caldwell has been assigned to Lowry AFB, Colo., after completing Air Force basic training.

Airman Royal will now receive specialized training in the munitions and weapons maintenance field.

KNOW YOUR FOOD

BREAD-CEREAL GROUP

Foods in this group provide worthwhile amounts of protein, iron, and several of the B-vitamins and food energy.

Foods Included: All breads and cereals that are whole grain, enriched or restored. Specifically this group includes: breads, cooked cereals, ready-to-eat cereals, corn meal, crackers, flour, grits, macaroni, spaghetti, noodles, rice, rolled oats, quick breads and other baked goods if made with whole-grain or enriched flour. Parboiled rice and wheat also fit in this group.

Recommended Amounts: Four or more servings daily. Or, if no cereals are selected, choose an extra serving of breads or baked goods, which will make at least 5 servings from this group daily. Count as 1 serving: 1 slice of bread, 1 ounce ready-to-eat cereal, 1/2 to 3/4 cup cooked cereal, corn meal, grits, macaroni, noodles, rice or spaghetti.

The Bread-Cereal Group is an important source of carbohydrates. In days of old, we had to depend on home baking for breads but today our markets make available a wide variety of bakery products in ready-to-serve, partially-baked, frozen ready-to-serve, prepared-frozen and many other forms.

Recently, there has been a resurgence of home baking as many enthusiasts are recapturing the nostalgia of old-time kitchens with their aroma of hot bread fresh from the oven. If you bake your own bread, remember that milk, whether liquid or powdered skim, enhances the food value of the bread.

Breakfast cereals, whether ready-to-eat or to-be-cooked, are whole grain or fortified in some manner. When it comes to rice, most consumers still prefer white rice although brown rice has more nutrients (the B vitamins — thiamine, riboflavin and niacin) unless the white rice is enriched. While brown rice doesn't cook up as fluffy, it has an especially delicious taste many people find pleasing. You may want to try it the next time your menu calls for rice.

Material Sources: University of California Cooperative Extension; USDA Leaflet No. 424, USDA "Food for us all."

By Mrs. W. McDaniel

The shower given for Cindy Roark bride-elect of Wayne Spoons was well attended by relatives and friends Saturday night at the San

Gabriel Annex. Cindy and Wayne will be married September 24 at the First Baptist Church in Giddings. They will live in Caldwell. Eduardo Dela of Mary Hardin Baylor and Miss Vivian King had

lunch Sunday with Mr. and Mrs. Donny Heine Darren and Dawn, also Kathy Patchke of Tyler is a guest in the Heine home.

Mr. and Mrs. Gene Northcott and Diane also Mrs. Gary Northcott and Chris went to the 25th wedding anniversary celebration of Mr. and Mrs. Roy Tuttle of Jar-

rell Sunday. Mrs. Tuttle is a niece of Mrs. Gene Northcott.

Gene Northcott received word that his mother Mrs. Pernie Northcott is out of an Austin Hospital and doing fine.

Mr. and Mrs. Randy Robinson and girls of Houston were week end guests of his parents Mr. and

Mrs. Jimmie Robinson and sister Sherry.

Mrs. Hazel Clark has been visiting her sons Billy and Gus and their families, her sister and husband Mr. and Mrs. Noel Barron and Margie Barron all of Houston and at New Gulf with another

sister and husband Mr. and Mrs. Tommie Wilson.

Mrs. Betty Harrison has returned home after several weeks visiting with her daughter in Freeport.

Chandler Evans of Caldwell spent the week with his grandparents Mr. and Mrs. Jim Stewart.

Mom Smith of Sweet Briar Rest Home in Taylor has been visiting in the home of her daughter and husband Mr. and Mrs. James Terry.

Mr. and Mrs. Billy McDaniel and Bryan of Pasadena spent the week end with his parents Mr. and Mrs. McDaniel. They all went to Round Rock Saturday night for the birthday supper of Walter and daughter Mrs. J. C. Payne who have birthdays September 5 and Walters granddaughter Michel who has a birthday September 6. Others who were there were J. C. Robby, Calvin and Shelton Payne and Mike Beard of Austin.

Mr. and Mrs. Buddy Limmer were at the Hirt reunion Sunday at Thorndale.

Mr. and Mrs. Arthur Wuthrich of Austin were supper guests of her sister and husband Mr. and Mrs. Richard Heine Sunday.

Mr. and Mrs. Guinn Gifford were at the Eiland reunion at the Fair Park in Rockdale Sunday.

Mrs. Walter McDaniel was in Rockdale Monday morning visiting Mr. and Mrs. Jim McDaniel. She also attended the funeral of Pete Simank in Thorndale Monday afternoon. Mrs. McDaniel is retiring from her job at Kerr-Ban Tuesday September 6 in Taylor after 10 years of service with them. This company makes living room tables of all kinds.

NNA President Cites Planning For Convention

WASHINGTON D.C. "National Newspaper Association committees are to be congratulated for the work they have done on the 92nd annual convention and trade show," George Joplin, president of NNA, reports. "Through their efforts," Joplin said "this year's program will make the convention a success from beginning to end."

The opening session on Thursday, October 27, will be "Estate Planning for the Newspaper Family," a subject of vital importance to newspaper publishers. Former general counsel of Spindel Newspapers Don Meyer, an expert in the field of estate planning, will present many ways to avoid exorbitant estate taxes, provide for heirs and "keep the newspaper in the family."

Dr. Michael E. DeBakey will close out the convention on Saturday, October 29. Dr. DeBakey, who is with the Baylor College of Medicine at the Texas Medical Center in Houston, will speak on "Research and Technology in Heart Disease," a field in which he has become world renowned.

In between there will be sessions tailored to several areas of community newspaper publishing which will have all convention delegates returning home with money-saving and money-making ideas that can be put to immediate use.

New Home Cost Increases Over 100% In 10 Years

The average cost of a new single-family home has increased more than 100 per cent in 10 years, and this trend is likely to continue, says Kenneth E. Graeber, economist in real estate with the Texas Agricultural Extension Service. His information is based on recent U.S. Department of Commerce reports. Given population and trends, Graeber projects and average home appreciation rate of 8 per cent annually. "If the trend continues, homes selling for \$35,000 today might sell for \$63,000 in 10 years," contends the Texas A&M University System specialist.

"Many families have postponed purchasing a home in hopes of saving up to buy or build their 'dream' home. However, inflation may prevent these individuals from ever owning their own home," notes Graeber.

Moffat To Have Music Jamboree

The monthly music jamboree of Country and Western and blue grass music will be held Sept. 10 at 7:30 p.m. in Moffat Community Center. Musicians are expected from Milano, Cameron, Grosbeck, Lott, Waco, Copperas Cove, Belton, Temple, Moody, Cyclone and other towns.

The program is free and a snack bar will be available. All are asked to bring lawn chairs. No alcoholic beverages will be allowed.

NEW OFFICERS for the Yoeman Booster Club are shown before their Monday meeting on Labor Day. Jerry Hall, standing at right is president; Clarence Hanel is vice president and Mrs. Shirley Hollas is secretary. The club meets weekly at the field house and interested boosters are invited to join.

Baseball Legends Carved in Granite

GEHRIG HUGGINS RUTH RUPPERT

New York — (PWS) — For years, All-Star heroes Babe Ruth and Lou Gehrig, and veteran manager, Miller Huggins, stood guard around the center field flagpole in Yankee Stadium. And, memorial plaques to Ed Barrow, Jacob Rupert, Joe DiMaggio, Mickey Mantle, Joe McCarthy and Pope Paul VI watched on.

Barrow, Huggins and McCarthy were great managers of the Yankee past. Rupert was the first owner of the club, and Gehrig, DiMaggio, Mantle and Ruth were just four of the all-time All-Stars from Yankee history. Pope Paul's plaque commemorates the Mass for Peace which he celebrated in Yankee Stadium in 1965.

Also for years, however, outfielders lost many long fly balls between and behind the stone monuments. So, during the recently completed modernization of the stadium, the monuments, plaques and flagpole were relocated in a Memorial Park between the bullpens.

As the visitors to the All-Star Game in Yankee Stadium on July 19 look out to the bullpens, they most likely will notice the monuments to baseball heroes in the new Memorial Park located deep in left center field. And all baseball fans, whether they go to the game or not, can help decide who will be the heroes of the 1977 game by voting in the All-Star Fan Election. This year's election, like the previous seven, is underwritten by the Safety Razor Division of The Gillette Company. Ballots are free in stores that feature a Gillette All-Star display or at major or minor league ball parks. Fans can get their ballots and vote any time from May 21 through July 4.

Though the monuments are no longer in center field, players and fans alike testify that when they enter Yankee Stadium—they can feel the presence of some of baseball history's greats. (PWS)

Normal behavior called 'remarkable'

AUSTIN, Texas (Spl.) — Most people mistake the whole of psychology for the one portion of that discipline that studies abnormal behavior, the chairman of The University of Texas Psychology Department says. While everybody is fascinated with abnormal psychology, says Dr. Philip Gough, what is really 'remarkable' is normal behavior. He says, for exam-

Spiritual Reader And Advisor

Readers from all over the world consult her for advice. There's no pity for those knowing they're in hard luck and need help and do not call for it. Don't let the devil stand in the way of your happiness. She solemnly swears to help you overcome your problems. She will show you how she can help you! Just call her now! Take a minute to call her. You will feel happiness all around you.

CAPTAINS for the 1977 Yoemen are Lawrence Lowe, No. 11; Steven Hollas, No. 65; Chris Jenkins, No. 33; and David Rosemond, No. 22.

Heading South...

Yoe Tries LaGrange In Non-23AA Battle

It's the Yoemen in LaGrange Friday night at 8, looking to recoup the 7-6 squeaker loss last year and to find the first '77 non-district win after the 12-6 Taylor loss.

LaGrange has a senior starting lineup on offense, including eight players who go both ways.

Head coach Max Graham says the Yoemen suffered no injuries against Taylor and had a hard, hot practice Tuesday night.

The team is staying enthusiastic, Graham notes after losing to Taylor in the final 39 seconds and almost breaking David Rosemond for a TD kickoff runback

after that. The Yoemen ran out of time at the Duck 14.

It has been two years since LaGrange won the AA state championship, the year the Yoemen went to the quarterfinals.

It may be the opening game for LaGrange, fielding a team weighing an average of about 180 pounds. So experience and size will await the Yoemen on Leopard Field.

Coach Graham reports no particular problems within the Yoemen lineup and is expected to start with about the same lineup against LaGrange.

Cameron will be looking for the offensive blocking and ball handling to break Rosemond loose from the tangle he met in Taylor. He gained less than 3 yards a crack in 17 tries.

It will be the second road trip in two football Fridays and keeps the Yoemen another week from their home opener here September 16.

The LaGrange starters on offense are:

QB Michael Miller 175
LH Bobby Johnson 180
RH Douglas Richter 175
SE Jeff Michalka 170
C Paul Mikula 165
RG Ricky Dippel 210
LG Roy Ulrich 168
RT Mike Fitzpatrick 220
LT Tim Meinardus 170
FB Doug Bippert 145
TE Michael Roberts 170
Cameron probable starters on offense are:
QB Wayne Steamer
TB David Rosemond

TALENT SPOTLIGHT

PETER RIOLA

Peter Riola, 17-year-old son of Mr. and Mrs. Charles Riola of Route 1, Cameron, is a Yoemen starter on the wing back and outside line backer positions this year.

The 5-11, 160 pound senior has been playing football since the seventh grade, and also participates in track. His football honors include an honorable mention on defense.

A member of 4-H, Peter's favorite college team is A&M while his pro favorite is the Cowboys. He spent the summer hauling hay and swimming, and plans to attend college when he graduates.

ALBERT HANEL

Albert Hanel, 17, is a Yoe senior who starts at the center and tackle positions and is 6', weighing in at 190. He is the son of Mr. and Mrs. Clarence Hanel of Rt. 3, Cameron.

Albert has played football for six years and baseball for three. His achievements include honorable mention at the science fair and being on the student council. He is also a member of Junior Historians, CYO, and Columbian Squires.

Picking A&M and the Cowboys as his favorite teams, Albert hauled hay and worked at Cameron Machine Shop this summer. He plans to attend A&M and major in mechanical engineering.

5-Run Rally Defeats Cards

The Rockdale Lobos defeated the Cameron Cardinals 10-9 with a five-run rally in the bottom of the 9th on Sunday.

Kenneth Scott was the losing pitcher, but this was one of only three losses, with Scott counting 13 wins.

Joe Reyes hit two home runs for the Cards and Lonnie Scott also homered.

The Cards will meet the Lobos at the Fiesta grounds Sunday for the first of two games starting at 1:30 p.m. The second game will be with the Salado Pirates.

1977 State Fair Is Fun For All

The 1977 State Fair of Texas will salute the food industry with "The Great Food Round-Up", October 7-23.

More than three million visitors are expected to enjoy impressive exhibits sponsored by national companies -- to sample Kraft's caramels, dip into a Heinz pickle barrel, munch a Pillsbury biscuit or find their fate in a LaChoy Fortune Cookie.

Displays, demonstrations, special guests and music will educate, entertain and please with taste treats in a kaleidoscope of flashing lights, appetizing aromas and animated illustrations.

At the Music Hall irrepressible Debbie Reynolds will star as the stright-shootin' Annie Oakley in the musical gem, "Annie Get Your Gun". Directed and choreographed by Gower Champion, the show sparkles with imaginative dance treatments, glamorous costumes and lilting Irving Berlin tunes.

In a 9-day round-up of thrills, October 8-16, the State Fair Rodeo, will again draw top riders to assault the record books and standings of the Professional Rodeo Cowboys Association.

For 25 years the Pam-Am-

erican Livestock Show and Exposition has attracted visitors from all parts of the world to this showcase for the finest beef and dairy cattle, swine, sheep and goats. Other major events in the Coliseum and pavilion areas will be the State Fair Horse Shows, Junior Livestock Shows and Sales, regional Sheep Dog trials and the highly entertaining Donkey and Mule Show.

The Coca Cola Big Tex Stage will vibrate with the daily furty of Los Argentines and South American Indian drums.

From October 16-23 the spectacular Trinidad and Tobago Championship Steel Orchestra will also entertain with multiple daily free performances while their villagers present a Folk Festival.

Singers, dancers, aeriels and local talent will round out the entertainment in the shadow of Big Tex. Also without charge the Dr. Pepper 3-ring circus will perform daily to "standing room only" crowds.

Dancing Waters, a fantasy of fountains, lights, flowers and music to be viewed from the beautifully landscaped banks of the Esplanade, will provide a restful change of pace from the lively carnival atmosphere of the fair.

Football fever will strike early when an overflow crowd jams the Cotton Bowl for the Texas-Oklahoma battle, October 8. Texas will return October 22 to meet SMU in a Southwest Conference game.

Nightly Cotton Bowl entertainment begins October 10 with the Parade of Champions a super marching contest for high school students. America Day, October 4, will feature military bands and pageantry; East Texas Day, October 17, city queens and bands, and La Fiesta Mexicana, October 18, singer Johnny Rodriguez.

Always crowdpleasers, the contests for dessert makers, chine painters, needlework experts and pumpkin carvers will draw throngs to the Creative Arts Department in the Women's Building. In Marine Square competitive military events will be topped only by the precision drills, marching and concerts of the famed scarlet-coated U. S. Marine Drum and Bugle Corps.

At the 1978 Southwest Automobile Show, the first-with-the-most in sleek shiny cars, and in the Food and Fiber Pavilion bountifully filled with Texas-grown products, musical talent will enliven colorful displays in floral settings.

Special days speak for America as a melting pot as Texans with Norwegian, Czech and German heritage celebrate with their national foods, music and dancing. At twilight the daily Torchlight Parade with floats and beauties will wind past Big Tex on the trek through the park before the fireworks light up the sky with every body still enjoying tempting snacks served over the fairgrounds.

The famous "penny black" stamp issued in Victorian England in 1840 became the first postage stamp in history.

The famous "penny black" stamp issued in Victorian England in 1840 became the first postage stamp in history.

Even speed demons tend to ease up on the gas pedal when they see a road sign about children. No one wants to hurt a child.

Yet many of us hurt even the children closest to us. Maybe, as parents, we tend to try to make them think we're **too** perfect. And when they discover our feet are clay, they are disillusioned.

Maybe we give children too many things, and too little of ourselves. Maybe we forget how fleeting childhood is, and put off too much until a tomorrow that comes too late.

Most of all, maybe we neglect introducing our children to the Church, so that God's home may become a part of their lives. Let's do the most important things for our children -- include church school in their fall curriculum.

Plug In Slow Cooker For Cool, Easy Meals

Plug in the slow cooker for an easy meal, says Frances Reasonover, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System. In cooking some dishes you may even leave the slow cooker on all day while you're away from home, the specialist says.

SLOWCOOKER SAFETY

Before using the cooker the first time, read instructions and safety rules. Generally the cooker will have a high and low heat setting. Slow cookers are designed for long cooking time, so foods heat slowly, especially on lowest setting. Generally meat and egg mixtures are cooked longer than six hours on LOW setting to make them safe to eat. Meat and egg mixtures do not get hot enough in less than six hours to destroy harmful bacteria.

Also, remember that the cooker is hot to the touch during cooking, so use hot pads.

In addition, sudden temperature change may damage the crockery liner of the cooker, so avoid putting cold food or water in it.

Put the food IN before you turn the cooker ON.

SLOW COOKING

Cook with the cover on, except to reduce liquid, as in browning. Enough heat may escape when the cover is removed -- to check cooking progress or to stir contents -- that cooking time must be extended.

Slow cooking does not LOSE liquids; generally it ADDS liquids -- which makes the method especially effective for cooking meats and vegetables. It may, however, also be used for some breads, cakes, and other foods.

Try these: spiced, dried fruits cooked overnight and served with ready-to-eat cereal. Old-fashioned bean soup -- start it before breakfast and it's ready at lunch. Add a fresh vegetable relish tray and leftover cornbread -- toasted and sprinkled with cheese. It's a meal!

For slow cooking by favorite recipes, remember: liquid does not "boil away." At the end of cooking time, there is usually more liquid instead of less. In adapting a recipe to "slow cooking," use about half the recommended water.

COOKING GUIDELINES

--Allow plenty of time for cooking on the low setting.

--Often steps can be left out of a recipe and all ingredients added at once and cooked 8 to 10 hours at the low setting. Liquid is added last if needed.

--When cooking vegetables, add milk, cream or sour cream during the last hour.

--Brown only fat meats. Fat does not cook off in the slow cooker as in the oven. Brown and drain fat meats before adding to the cooker.

--Add frozen vegetables and seafoods during the last hour of cooking. It is not necessary to pre-cook these.

--Most foods may be cooked on "high" the first two hours to reduce the cooking time, then turned to "low."

Clubs In Action

Retired Teachers Association

First meeting of 1977-78 year of Milam County Retired Teachers Association was held at the Cameron Business and Professional Women's Club House, September 7, Wednesday, at 2 p.m.

The officers of the 85 member organization are Doris Gleason, president; Edna Clark, vice president; Ruby Mosley, second vice president; Ruth Rosson, secretary and Ruby Arledge, treasurer.

Kay Green funeral director, presented a program on a phase of crime prevention -- "Operation Identification" which is encouraged by law enforcement agencies and is sponsored by Cameron Police Department in co-operation with Cameron Volunteer Fire Department, Evening Lion's Club and Cameron Delphian Club.

Kevin Harmon pharmacist and president of Cameron Volunteer Ambulance Service spoke on the organization.

Beta Nu Chapter

Beta Nu Chapter of Delta Kappa Ganna will hold its first meeting of the new school year, Saturday, September 10, with a tea at 2:30 p.m. at the First Baptist Church in Marlin.

Eight new active and one associate members will be initiated. Program No. 1 "From Challenge to Achievement" of the 1977 Program Focus on "Commitment" will be given.

Mrs. N. B. Range, president, and Mrs. Dorothy Lumpkin, vice-president, of Marlin, and Mrs. Dorothy Gause of Cameron will give reports on the Alpha State Convention held in June at Houston.

Marlin members will be hostesses for the tea.

Business-Professional Women's Club

The Business and Professional Women's Club met at the Club House on Milam Street Monday evening with a covered dish dinner and business meeting. The meeting was opened by the President, Mrs. Eunice Lawrence and Mrs. Fannie Jackson gave the opening prayer. The recording secretary Mrs. McWilliams gave her report and Mrs. Hazel Williams called the roll. The next meeting will be held on September 19.

PERSONAL MENTION

Mr. and Mrs. Brunie F. Harbour of Rogers have just returned from an 18-day motor coach tour of the Pacific Northwest, touring from Dallas with the "Traveling Texans."

Upon returning to Dallas, the Harbours visited their family there for three days before coming on to Rogers.

Energy Bill Would Cost More For Consumers, Says TP&L Head

Federal energy legislation passed by the House and under consideration by the Senate would impose increased cost burdens on already hard-pressed consumers and do nothing to increase fuel supplies or deal with the real energy problems, warned officials of Texas Power & Light Company.

"Instead," said TP&L chairman and chief executive J. F. Skelton, "it could virtually wipe out state and local control over energy, financially cripple utilities, increase tax burdens, jeopardize reliability of energy systems, and thus threaten jobs and the thriving economy of Texas."

Skelton noted that President Carter's original energy proposal was only 250 pages. The bill recently passed by the House was over 500 pages. One part of the legislation that was not included in the Carter proposals, would authorize the Department of Energy to supervise and review the rate-making activities of the state regulatory agencies, if these agencies fail to adopt minimum standards set forth in the Federal Energy Act.

"This means cities and towns on the TP&L service area and the Public Utility Commission would be reduced to mere administrators of federal policy," said Skelton, "and if the Dept. of Energy was not satisfied with their job it could take direct control of rate-making."

Skelton says there is no evidence that present procedures are not adequate and he expresses the fear that the legislation will further complicate and delay an already lengthy regulatory process.

A deadline of 1990 is set for discontinuance of the use of natural gas and oil for day-to-day generation of electricity, and a graduated excise tax would be levied beginning in 1983 at 55 cents per million btu's as an encouragement for electric utilities to convert to alternate fuels.

"We don't see it as encouragement for conversion," said Skelton, "but rather as an unfair provision that would result in customers of the Texas Utilities System, of which TP&L is a part, paying as much as \$900 million in user taxes from 1983 to 1990."

"We're building lignite plants and nuclear facilities as quickly as possible, but under our present

schedule we will still require gas and oil for some of our generation in 1990," Skelton noted. "We might speed up the process to meet the deadline, but there are other companies who are not as far along in the conversion as we, and would find it impossible to meet the 1990 requirement."

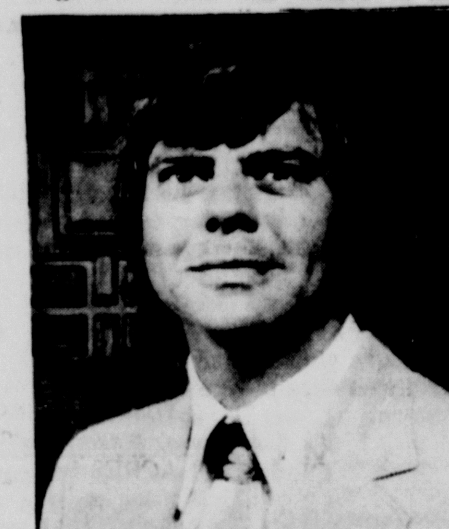

The TP&L chairman considers another provision of the legislation a serious threat to the reliability of the Texas Interconnected System, of which TP&L is a part. This would grant the Secretary of Energy the emergency authority to order interconnections between companies in all parts of the nation, to order the wheeling of power from one part of the country to another, and to order power pooling.

Alcoa's Rockdale Works Lists Personnel Changes

A transfer has been announced at Aluminum Company of America's Rockdale Works and a spring graduate has begun his career at the company's largest aluminum making facility.

Robert J. Tasler will join the industrial engineering department at Alcoa's Anderson County Works near Palestine. He was assigned industrial engineering responsibilities in potrooms, potlining and at Industrial Generating Company while at Rockdale Works.

Tasler has a bachelor's degree in industrial engineering from Lamar University, where he was named "outstanding industrial engineer" and "outstanding senior engineer." He was active in the

ROBERT TASLER

"The Texas Interconnected System, in operation for 40 years, has saved Texas from major blackouts and power shortages," stated Skelton. "Texans have paid for the present reliable system. Their having to pay for additional facilities necessary to provide for such interconnections would provide no tangible benefit."

"If this energy legislation becomes law," Skelton said, "it will be only a matter of time before Texans find themselves facing the same energy problems already experienced in other parts of the country. This was recognized by Texas Congressional representatives who voted in overwhelming opposition."

Alcoa's Rockdale Works Lists Personnel Changes

American Institute of Industrial Engineers at the Beaumont School. Tasler first worked for Alcoa during the summer of 1970 at its Point Comfort Operations, where his father, E. J. Tasler, is a medical technician. Tasler's wife, Joan, is employed by Alcoa's construction division at Rockdale Works.

James W. Mueller, a June graduate of Florida Institute of Technology at Melbourne, Florida, has joined Alcoa as a mechanical engineer in potroom fume collection and utility.

Born in San Francisco, Mueller was an honor graduate, member of the dean's list and vice president of the student chapter of American Society of Mechanical Engineers.

JAMES MUELLER

"Our son fixes digital computers for the Navy and pop-up toasters for me."

Mrs. Kenneth Johnson, Ellisville, Missouri.

"Our son is a Data Systems Technician. The Navy taught him how to remove computer circuits and repair them. But I can't wait till he comes home on leave," says Mrs. Johnson. "All that training comes in very handy."

If your son is good at fixing up his stereo or if he knows his way around the wiring in your appliances, he may be eligible for about \$17,000 worth of advanced technical training in electronics. And it won't cost you a cent.

For more information, tell him to talk to his local Navy Recruiter. Or mail the coupon below. For the fastest reply, call toll-free, 800-841-8000 anytime, day or night. **The Navy.**

AlcoaRecycles Millions Of Used Cans

More than eight million pounds of used aluminum beverage containers were processed by Aluminum Company of America's Houston Recycling Center during the first year of its can recycling activity.

A record one million pounds of used cans was processed during June, the center's twelfth month of operation, according to F. P. Bergeron, Alcoa's Texas area manager.

Since start-up in July 1976, the automated Houston facility has been the central processing point for used aluminum cans purchased from 28 Coors beer distributors and beverage distributors in Houston and 23 southeastern Texas communities.

More than 184 million used cans, or nearly 15 cans for each person in Texas, have been processed and shipped in rail cars to Alcoa remelting facilities in Indiana and Tennessee where they are recycled into aluminum sheet for sale to can makers, Bergeron said.

George Herrman, Alcoa's manager for aluminum reclamation said:

"Everyone benefits from recycling. It's a financially rewarding activity, helps conserve raw materials, reduces litter and gives Alcoa the opportunity to put recycled metal back to work."

"In 1976, more than 40 percent of all aluminum cans sold in Texas were recycled. We forecast that the percentage in 1977 will reach 50 percent. Recycling works because a lot of consumers like to supplement their incomes by getting 17 cents a pound for returning used aluminum cans to recycling centers."

50th Anniversary Celebration In Rosebud

Mr. and Mrs. Lewis White of Rosebud will be honored by their children and grandchildren with a garden reception celebrating their 50th wedding anniversary on Saturday evening September 10 from 7 - 10 p.m. at the home of their son, Wendell, at 503 North College in Rosebud.

Other children of the couple are Mrs. Homer (Nina) Hill of San Antonio, Mrs. Frank (Lois) Skala, Jr. of Rosebud, and Mrs. Dennis (Louise) Kasner of Rosebud.

Mrs. White is the former Zelma Weaver. The couple was married September 11, 1927 in Rosebud.

WANTED: A VERDICT ON AMERICA'S CRIMINAL JUSTICE SYSTEM

Law. Order. Justice. Will they ever replace pervasive crime and imperfect justice in modern America?

Let Courses by Newspaper help you judge. In its 15-part series "Crime and Justice in America," outstanding experts present arguments on such controversial issues as victimless crime, plea bargaining, white-collar crime, discretionary sentencing and punishment. And while you're weighing the evidence, you can earn valuable college credit.

Don't be guilty of neglecting these crucial issues. Plan to make Courses by Newspaper's "Crime and Justice" series a regular part of your fall line-up.

**Why should you
take Parke-Davis
Vitamin C?**

Many doctors believe vitamin C is important to your health. And Parke-Davis—maker of some of the finest pharmaceuticals in the world—makes its vitamin C with the same high standards it applies to other pharmaceutical products. Yet Parke-Davis Vitamin C is surprisingly low in cost. Stop in today and buy enough Parke-Davis Vitamin C for the whole family. Your choice of 100-, 250-, or 500-mg tablets, bottles of 100.
